SCENTED-LEAVED VARIETY. Clorinda.

rosy cerise, large, in fine clusters; deep green, deliciously fragrant foliage; vigorous; profuse bloomer; superb as a standard.

MARGUERITES, WHITE FLOWERED.

Charming when grown in standard form. Look particularly well bedded over a groundwork of colored flowered plants—pink Ivy-leaved Geraniums for instance.

VERONICA. Quite unique in Standard form, their glossy evergreen leaves, with their spikes of light, elegant and brightly-coloured flowers, produce a delightful effect. We offer as follows:—

DARK BLUE.	LIGHT BLUE.
PURPLE.	BRIGHT RED.

FUCHSIAS. The pendulous flowers of the Fuchsia are seen to the best possible advantage when the plants are grown in Standard form.

Double and Single-flowered, in choice named varieties.

HELIOTROPE. Delightful as Standards for in and out of doors.

In two colours, DARK and LIGHT.

PLUMBAGO CAPENSIS. Clusters of charming milk-blue or white flowers; a pretty plant for sub-tropical bedding or Conservatory decoration.

In two colours, BLUE or WHITE.

VERBENA. LEMON-SCENTED. Well-known fragrant foliated plant; a general favourite; spikes of pale lilac flowers.

ABUTILONS. Effective foliage plants for sub-tropical and other bedding or indoor decoration.

Sawitzii, foliage ivory and green; fine.

Thompsoni, leaves mottled bright yellowish green.

Special Quotations for large quantities.
